RE: RFAI Dated August 25, 2010
D C Republican Committee Federal

Mr. Norfleet.

We are amending reports tonight in response to your above referenced RFAI. Specifically the April 20 Monthly report was amended to show full address and employer/occupation information for all relevant contributions. The DC Republican Committee uses "best efforts" to obtain this information as described by the FEC including requesting the information on all solicitations and following up with the donor within 30 days. The information was recently obtained and has been amended.

Other requested clarifications have been made to descriptions. The DC Republican Committee does not support or make any expenditures on behalf of federal candidates and therefore does not fundraise on behalf of any such candidates. The previous description of simply fundraising has been changed to more accurately reflect the reimbursement as a reimbursement for a travel expense related to a trip to talk to a DCRC donor.

These amendments will also resolve the year-to-date issue raised in other recent letters for the May and June Monthly reports.

Scott Ward
DCRC General Counsel
